

Moo Moo! Oink Oink!

Practice ideas:

1. Cut out 2 pgs. Cut out images as cards and do a matching game.
2. Cut out photos and make a sound book.

3. Make a video of yourself saying the sounds on the cards, and look at the video with your child.

***Note:** Model sounds in a fun animated way while your child is looking at your face. Don't ask your child to imitate, as that may reduce the fun and cause your child to shut down. It might take a few trials, a few days, or a few weeks, before they imitate. Repetition is the key to success.

**Make your own
animal sound!**
